

World Diabetic Foot Day

2 February 2022 Paris, France

World Diabetic Foot Day in 2022 – What to expect

- World Diabetic Foot Day will take place during the EWMA 2022 Conference in **Paris on 2 February 2022.**
- The objective of the World Diabetic Foot Day is to look into what has been achieved so far within the **management of the diabetic foot** and what still has to be done in order to **make a difference** in further reducing the number of amputations and possibly preventing any foot complications.
- The day will have a strong focus on advocacy and will be open to the participation of all the stakeholders in the field of Diabetic foot: **patients, specialists, caregivers, educators, administrators.**
- All major diabetic foot associations have joined this initiative and will help shaping the programme in line with their interests and specific point of view.
